“Ludentology™ is the study, application and impact of game playing in social and organisational contexts. Ludorati Biz puts particular emphasis on the benefits of board games and escape rooms, helping teams and individuals enhance skills and approaches to their professional tasks through unique structured and fun approaches.”

TEAM RECREATION/BUILDING

At Ludorati Cafe, we understand that wellbeing, collaboration and, in certain instances, healthy competition are important, both for individuals and teams in their work environment. As is chilling-out.

As the UK's premier board-game cafe, Ludorati Café is now offering company team building and recreation sessions through the use of selected board games and escape room scenarios.

These can provide a mix of both cooperative and competitive environments for teams and individuals to engage in exercises that focus on building relationships, developmental learning or supportive wellbeing contexts.

Alternatively they can be simply used to have good fun!

Ludentology™ is a registered trademark of Ludorati UK Ltd.

THE NEXT LEVEL

To take things to the next level, we can provide expert evaluation and assessment through observation, analysis, feedback and coaching activity. We also provide accredited 'train the trainer' courses for those who may wish to undertake in-house events themselves.

Organisations can actually build 'recreation programmes' around a portfolio of games over time. Corporate tournaments and team events can also be organised to suit.

Events/sessions can be offered either at the Café, its regional Nottingham office (both in the City Centre) or alternatively on client site (through our client-site solution).

Prices are based on the type of event/session, its content and learning objectives, and are from as little as £10 per person upwards.

THE LUDORATI GAME CLASSIFICATION SYSTEM (LCGS 2020 'Games Wizard')

Ludorati recently introduced its innovative game classification system to assist with game selection for play and learning (first of its kind in the industry).

We define games through three axes, at the simplest level, as '**Overall strategy type**', '**Gameplay**' and '**Genre**' :

'Overall strategy type' differentiates between (i) '**Competing**' strategy games, such as Chess, Risk or Catan; (ii) '**Cooperative**' strategy games, e.g. Pandemic, Forbidden Desert, New Earth; and (iii) '**ComCo**' (a combination of the two, abbreviated) such as games like Captain Sonar (competing teams) or like Deception (team with 'traitor').

'Gameplay' provides a descriptive summary of overall main method of playing. Most games consist of various mechanics that fit together to form the 'gameplay'. 'Genre' ascribes the context of the game as in its subject matter.

Aside from more detailed information on each game, we also have a 'Biz' indicator in terms of its suitability for team/organisational settings and our 'skills' and 'application' matrices - that help us to advise organisations in choosing appropriate corporate events, workshops and/or awaydays.
